

FM2720 UNIVERSAL CUTTER GRINDING MACHINE

Molding Cutter Grinding Device

Linear Cutter Grinding Device

Round Saw Blade Grinding Device

Milling Cutter & Drilling Cutter Device

Optional accessory (tailstock)

The machinery is mainly used to grind all kinds of hard alloy cutter

- It can be used to grind milling cutter, driller, woodworking planer and different round saw blade when installed with appropriate accessories.
- Spindle angle adjustment, grinding wheel lifting and cutter rest adjustment are all adjust by worm and gear structure

Linear Guideway and Scale Ring

High precision scale ring and control hand wheel

High precision V-type delicate guide rail, length 400MM, higher precision.

Universal adjustable cutter head, adjust the cutting tool more convenient

Milling & Drilling Cutter

Planer Cutter

Molding Cutter

Round Saw Blade

Specufacations

Cutter rest turning diameter	400mm	Grinding wheel turning speed	±45°
Grinding wheel specification	10x ∅ 32x(∅ 16)x ∅ 150mm	Power of motor	0.59kw
Cutter rest stroke	300mm	Applicable saw blade size	105-500mm
Grinding wheel rotate speed	3500r/min	Overall size	1040*720*1300mm
